Organization of Board of Trade.

A mass meeting was held on Monday afternoon in the superior court room, called for the purpose of considering the question of forming an organization for the promotion of the interests of Jackson and Amador county generally. The city was canvassed the latter part of last week, resulting in an almost unanimous sentiment in favor of the immediate organization for that purpose. H. E. Kay took an active part in this preliminary work. At the hour appointed the business community generally turned out in mass, and poured into the court room, crowding it to the doors. The Jackson Military band, volunteered its aid in rendering music before and during the meeting.

Promptly at 1:30 p. m., C. P. Vicini was elected chairman of the gathering, and W. H. Greenhaigh was chosen secretary, and both officials made some well chosen remarks setting forth the need of a movement of this kind, and the various ways in which it could be made to promote the interests of the city and the county.

K. Webb said that his idea was that this was merely a preliminary meeting, preparation to the formation of a permanent organization. That the officers now selected were merely temporary—the officers of the present meeting. That the proper time for the selection of permanent officers was when the committees to be appointed, had reported, setting forth the objects and aims of the association.

Dr. Endicott moved that the officers already named be made the permanent officers.

K. Webb thought this was unadvisable at this time, before the rules and regulations for the guidance of the society had been adopted. He believed it was necessary to keep the movement aloof from politics, and from office holders, or office seekers; business men were chiefly concerned, and they should have the management of its affairs. He complimented the people of Jackson in taking action toward organization, and trusted it would be the beginning of an era good feeling and earnest work for the upbuilding of the city and county. However, realizing that the feeling was toward making the officers named the permanent officials, he withdrew opposition thereto.

Alfonso Ginocchio was thereupon elected treasurer.

It was then moved and carried that a committee on constitution and by-laws be appointed, consisting of three persons, to be named by the chairman.

The chair thereupon named as such committee: K. Webb, C. M. Kelley, Alfred Goldner. It was then moved and carried that a committee of five, be appointed by the chair to take charge of the affairs of the organization pending the adoption of constitution and by-laws to be reported by that committee to the meeting to be hereafter called.

This committee was selected as follows: Dr. Wilson, V. S. Garbarni, N. Marella, Dr. C. Schacht and J. A. Laughton.

W. J. McGee moved that a roll of membership be opened forthwith, and that each member pay an initiation fee of \$1. Carried.

The roll was then opened, and 82 members signed, planking down \$1 each as a financial starter.

A vote of thanks was tendered to the Jackson Military band for its voluntary and valuable aid in furthering the meeting. The following persons signed the roll of membership:

We the undersigned agree to become members of the board of trade:
H. E. Kay E. Ginocchio
A. Eudey C. M. Kelley
F. Rabb J. Piccardo
W. Penry, jr. R. Ruggie
V. Garbarni J. J. Ratto

Baseball.

A game was played last Sunday on the local ground between the second Jackson nine, and an improvised local nine. As the second's beat the first team recently, it was generally believed they would have an easy time of it in defeating the picked-up crew. Instead of this they were worsted, with a score of 21 to 20. The line-up was:

2d Nine.	rf	Jacksons
L. Love	rf	Angove
C. Boro	lf	Cuneo
J. Love	s	Rugne
Delahide	lb	Dalporto
N. Boro	c	Tabbs
Holtz	3b	Podesta
Murphy	cf	Laverone
Carrara	2b	Porter
Prout	p	Cademartori

The Lone Copper Mine.

J. E. Wilson, P. Acker, L. Sanguinetti and Ben Sanguinetti, who a few days after the recent labor trouble commenced, left Jackson and went to work at the copper mine a few miles east of Lone. They returned to this city last Wednesday, and will resume their employment at the Argonaut, where they were working before the strike occurred. They speak very favorably of the outlook for the copper mine, and believe it will develop into a good paying mine. The ore carries copper, gold and silver; the gold alone being sufficient to pay expenses. It is on the same lead as the Camp Seco mine, and that is considered a very handsomely paying mine. The lone mine is running on a small scale, with less than 20 men. For testing purposes there is a three stamp mill on the ground. A boarding and sleeping house are connected with the mine, and the employees all board on the premises.

"Suffered day and night the torment of itching piles. Nothing helped me until I used Doan's Ointment. It cured me permanently."—Hon. John R. Garrett, Mayor, Girard, Ala.

Down With Typhoid.

R. S. Rainsford, superintendent of the Argonaut mine, is confined to his bed with an attack of typhoid fever. He had not been feeling well for a week or more, but continued to go to and from the mine until the early part of this week. Tuesday he had to remain at the house, and Dr. Galt was called, and found the symptoms to be those of typhoid fever in its incipency. On Wednesday he was removed from his room at Mrs. Bright's residence, to the residence of R. Ousby near-by, and a trained nurse, Miss Postle, was engaged. The fever has not developed seriously so far, and it is believed that he will recover in a short time.

FREE VACATION TRIPS.

Given by the reliable Stockton Record of Stockton, Cal. Earn your vacation free this summer. Free trips to any resort in California, or any place in the world. All expenses paid for one week or more, by you getting us a few subscribers in your community. Easy to do. Refer to any bank for our standing. Send now for our free book "Vacation Trips" giving all details. Remember this is no contest—you are working for yourself only. A postal will bring you everything to start work. Children Cry FOR FLETCHER'S CASTORIA

BY SPECIAL ARRANGEMENT WITH

THE SAN FRANCISCO BULLETIN

San Francisco's Leading Daily, the

AMADOR LEDGER

Is enabled to offer old and new subscribers

Amador Ledger - Weekly, \$2 per year
The Bulletin - Daily, \$3 per year
FOR \$3.00 Per Year

This is an extraordinary offer, and may be withdrawn at any time, so we would suggest that all old subscribers in arrears pay back accounts that they may take advantage of this special combination sale.

THE BULLETIN is famous from coast to coast for its fight in defense of clean government, and is read by more people daily than the combined circulation of all other San Francisco dailies.

You will appreciate the value of this offer when you consider that any of the other San Francisco papers will cost you \$8 per year.

SUBSCRIBE TODAY!

MINING NOTES.

All the mines are fast getting down to a full working basis. The Argonaut mill was expected to restart some time this week. The damage caused by the cessation of work in the shaft and drifts was considerable, and involved a week or more to repair. There is no trouble in getting all the men needed. The Zella mill was also started again this week with the full number of stamps. The Kennedy mill is running full handed as before the recent trouble. At the Bunker Hill, the management expected to be able to start the mill the middle of the week. The straightening out of the shaft, which was contemplated if the labor troubles had continued, will not be undertaken at present. This would have necessitated the stoppage of milling operations during the continuance of this work. It has been deemed best to postpone it, so that the mill is no doubt ere this running to its full capacity. At the Fremont sinking is in order, so that only a comparatively small force is employed.

A letter from Camp Seco says: "After a shut down for eighteen days we started the mine up again with a half a crew, although we expect to be running with a full force in a few days as the men are coming back on every stage."

Taxpayers Notice

Timber land will be assessed at \$5 per acre.
Give in your assessment by June 1st, so I can close the rolls.
Road and poll taxes due. Delinquent July 1st, after which it will be \$3 each.

CLARENCE E. JARVIS,
Assessor

Sprinkling Contract Let.

The board of city trustees met last Saturday evening for the purpose of receiving bids for sprinkling the streets. Three bids were received, namely: Green & Ratto, \$7 per day; Taylor & Podesta, \$5.75; and D. Mattley, \$5. The injection of a third bidder was somewhat of a surprise. The contract was awarded to Mattley. It is reported that the contract indulges in a lot of bunkum concerning the weight of the horses to be used, keeping them well groomed, bright harness, and so forth. The sprinkling wagon started on its season's run on Wednesday.

By paying all arrears, and \$3 in advance Ledger subscribers can get Ledger and daily Bulletin for one year.

D. A. PATTERSON DIES SUDDENLY.

County Recorder and Pioneer of Amador County.

A shock was given this community Tuesday morning by the report that David A. Patterson, who has been county recorder for the past sixteen years, had passed away at his home on Hamilton tract. The report came as a surprise as well as a shock, for few outside of the family knew that he was dangerously ill. He has been sufferer from chronic rheumatism for many years, and was crippled by that affection, as well as by a fall which he sustained some six years ago from the steps of the hall of records. In consequence of his ailments he had to be wheeled to and from between his home and his office for the past six years, and for a long period during that time he was too ill to leave the house. For the last year or two, he appeared to improve and was able to attend the office daily, and take a part in the work of recording documents. Up to Monday of last week, he was well enough to do this. This was his last day in the office. He started to record a deed for Volz to Victor that day. He got through the deed proper, and started in on the acknowledgement, but left it unfinished. The following day he was unable to leave the house. On Friday he was much worse. No regular medical practitioner attended him in his last illness. He was a believer in the new cult—Christian Science, and a healer of this sect came up from Lodi to treat him, staying until Monday morning, when she left for her home. At this time he seemed much improved, and expressed his belief that the next day he would be able to get to the court house.

Tuesday morning, he said he felt better. He wanted something to eat, and Mrs. Patterson, shortly before eight o'clock, started to prepare breakfast for him. After doing this, she returned to the sick chamber, and found a noticeable change. His eyes were rolling and glassy, and he was unconscious. His son-in-law, Dr. Wilson was hastily summoned, also two daughters, Mrs. Bierce and Mrs. Wilson. Dr. Galt was sent for, but when he reached the scene the patient had passed from life to death. The end came altogether unexpectedly, and was a great shock to the family and the community in general. As no qualified practitioner had attended him in his fatal illness, the alarming physical condition of the patient was unknown, even to his relatives. He entered the shadow of death with the expressed belief upon

his lips that he was decidedly better. The question of furnishing a medical certificate of the cause of death became a perplexing. Dr. Galt had not attended him professionally, and so could not certify as his medical attended. Of course, the Christian Scientist healer who did attend was not qualified to issue a certificate. The matter was referred to the state board of health, and the reply was, that under the circumstances it would be necessary to hold a coroner's inquest.

Coroner Potter came over Tuesday evening, and held a coroner's inquest. It was a formal affair, the object being to secure a burial permit by an authoritative statement of the cause of death. After hearing the evidence showing that deceased in his last sickness suffered from hemorrhage, a verdict was reached, that he came to his death from confection of the lungs. No autopsy was held.

David R. Patterson was one of the pioneers of Amador county. He took a part in the war with Mexico, and thereafter in the midst of the excitement incident to the gold discovery, settled in this county. He was a genial, whole souled man, and honored and respected by all who came within the circle of his acquaintance. Prior to his election to the office of recorder, he served two terms as supervisor of township five. He was a member of the Masonic fraternity, and under the auspices of that order the funeral services were held yesterday.

Deceased was a veteran of the war with Mexico, and was drawing a pension for services rendered therein. As this war occurred in 1848, he was at that time, according to the most authentic data that can be given of his age, between 15 and 16 years old when he enlisted; his age at the time of his death being given as 77 years 7 months and 21 days. Little authentic data can be gathered of his early history after coming to Amador county. No biographical sketch of his life has been printed either in the Amador County History or the Biographical History of Northern California.

He was married to Mrs. Alice Vance May 24, 1900. The funeral services were conducted by Henry Clay Lodge F. A. M. of Sutter Creek, of which he had long been a distinguished member. Also a member of Sutter Chapter No. 11 Royal Arch Masons. Services were held at the residence, and at the grave, the ritual of the order being read by the officers. Jackson lodge of Masons turned out in a body, also 17 members of Sutter Creek lodge, and members of the order from every part of the county attended. The floral offerings were numerous, and several of exquisite designs. The remains were interred in the city cemetery.

THE BOARD OF TRADE MOVEMENT.

The preliminary steps toward the establishment of a board of trade in Jackson, have awakened considerable inquiry on the part of the residents as to the objects to be attained thereby. It is a new thing here, and naturally all sorts of conflicting ideas are entertained concerning the purpose of the movement. Coming on the heels of a labor strike, it is apt to be viewed wrongfully on that account. Some may think that it has an anti-labor union design. But this is entirely erroneous. It is not a citizen's alliance, as that organization is commonly understood. It has no special mission in the settlement of disputes between labor and capital—mine owners and employers. The truth is, it is nothing more than an organization of business men and other citizens who feel disposed to join for mutual benefit and protection, and to encourage in every possible way the upbuilding of the city of Jackson and the county of Amador. We have been dormant in these respects for, lo, these many years, and to our own detriment. We have indulged in no boosting; while other communities have engaged in that line quite extensively, and have reaped the reward in adding to their population and material wealth. A good deal of our energy has been expended in fostering petty jealousies, in backbiting this and that individual on some frivolous excuse, and in most cases those aimed at have been the progressive element of our population, the individuals who have blazed the way in adorning the city or helping in enterprises tending to increase our population by providing employment to wage-earners.

If rightly conducted the organization will work beneficially in many ways. Through it several evils the business men have suffered from may be corrected. Working together they can save themselves every year many times over what the membership dues will cost them. The directions in which this can be done will readily suggest themselves to those concerned. Moreover, it will enable some concerted effort to be made toward setting forth the advantages of this county as a desirable place for the homeseeker. Every member should constitute himself a boosting committee of one in contradistinction to the knocking spirit that has heretofore been too much in evidence. The board of trade, or promotion society, or whatever name it may be given, is simply a move to get in line with those progressive communities which have reaped and are still reaping substantial benefit from well-directed organizations of this nature. The people of Jackson, and also residents in every part of the county, should encourage the plan. Whatever helps Jackson will more or less help the county at large. On the other hand, when outlying sections are prosperous, the county seat must of necessity secure a portion of the boom. Let us all get in on the boosting plan. We can boost without indulging in any exaggeration whatever.

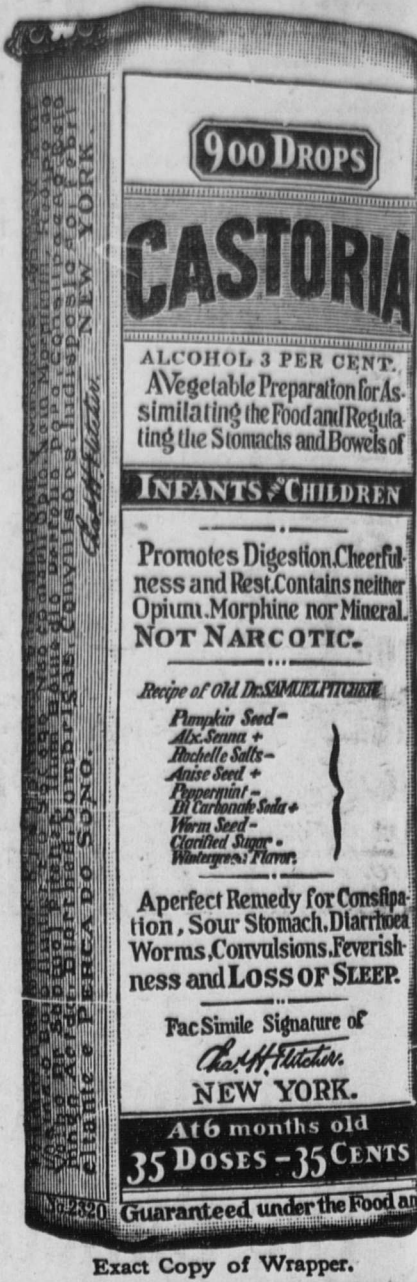

AN APPEAL FOR HISTORICAL MATERIAL.

The California State Library, through its California Department, is making a systematic effort at this time to gather in material regarding the history of the state. It is known that large quantities of data such as diaries, manuscript narratives, autograph letters of early settlers and prominent citizens, old ballots, scrapbooks, early account books, pamphlets, official documents, maps, California magazines and newspapers, pictures of pioneers and historic landmarks, etc., are now in the possession of individuals all over the state. This material is of very little value to the possessor, but when incorporated in a collection is of untold value to the student and writer. The state should be the custodian of these records. It is therefore asked that all public spirited citizens, having anything that will throw light on the history of the state, will donate it to the state library, where it will be preserved for all time, and be of benefit to the general public.

Kindly communicate with the California department, state library, Sacramento if you know the location of, or have in your possession any of the above mentioned items of historic interest.

At the city election in Stockton held last week, the democrats made a clean-sweep, electing their entire ticket, with the exception of two unimportant offices. This result was brought about by a division of the republican forces on the liquor issue. The democrats were arrayed against the closing of saloons on Sunday for resubmission. The straight republicans favored a resubmission of the question to the popular vote. A third party, christened the Good Government League stood for the continuance of the closing ordinance. And they polled enough to defeat the regular republicans by 800 plurality, thereby giving the city over to the control of the anti-reform movement.

Everyday Types.
There's the man forever bragging
Of his youngest, brightest child,
And his talk is so bromidic
That it nearly drives you wild.
There's the man who always tells you
Things that you must not repeat,
But who tells the same to every
Man he meets upon the street.
There's the man who's always boasting
That he's had a raise in pay,
But who always, when you ask him,
Hasn't got a cent today.
But the man who drives you crazy,
Whom you wish at birth had died,
Is the man who starts each joke,
"When I was on the other side."
—New York Globe.

Sudden Stimulus.
The villager rushed into the volunteer fire house.
"Come on, boys!" he shouted excitedly. "Lem Whentley's barn is burning down."
"Oh, shucks!" yawned the captain lazily. "We'll have to look up our red shirts and fire hats. Tell Lem we'll be there in an hour or so."
"But Lem's barn is burning, and there be five barrels of hard cider stored in the loft."
"What's that? Five barrels of hard cider? Come on, boys! Every man to his post. We'll have that barn saved inside of twenty minutes!"—Detroit Tribune.

Wasn't Worth While.
"Did Mae get her maiden name back with her divorce?"
"She didn't want it. She married that afternoon."—Puck.

The Importance of Little Things.
There was a time when she included him with the bores she chanced to know.
She used to sigh when he intruded. Her sigh was not a love sigh, though.
Her estimate of him at present should serve to make him very glad. He sent around a birthday present upon the last birthday she had.
'Tis strange how little things may often be of importance after all.
The hose that caused her heart to soften were silken—and a size too small.
—Chicago Record-Herald.

Her Appearance.
Mr. Poots—Has yo' had de pleasure of seein' Brudder Bump's new wife?
What does yo' think of her, sah?
Mr. Spradley—Uh, well, sah, I doesn't want to be cricketal nor nuthin' dat-uh-way, but it do 'pear to me like he must uh done won de lady at a shootin' match.—Puck.

Replenishing the Larder.
"Which do you prefer, musical comedy or tragedy?"
"What's the difference?"—New York Herald.

Echo of Mother Goose.
There is a young woman as sweet as can be
Who lives upon nothing save virtues and tea—
Yes, virtues and tea are the chief of her diet.
But she says it's so dry you would better not try it.
—Browning's Magazine.

A Safe Model.
"You have invented an airship?"
"Yes."
"What advantages has it?"
"Well, for one thing, it is absolutely safe. I can't even persuade it to take a chance by leaving the earth."—New Orleans Times-Democrat.

Skating Days.
She—How long did it take you to learn to skate?
He—About fifteen sittings.—New York Mail.

Poet.
Throwing his pen aside,
"If I knew life," he cried,
"Then could I write!"
But when with knowledge wide,
Stained by life's purple fruit,
Taking his pen one night—
Lo, he was mute!
—Armin Trebor in Appleton's Magazine.

As to Blobs.
"Poor Blobs! It's about all he can do to keep his head above water these days."
"It oughtn't to be. He has invented a new style of life preserver."—Chicago Tribune.

A Bashful Wooer.
Her hand! He was bent on possessing it. He loved her, but quailed at confessing it. Till one eve—where's the harm?—
In the gloaming his arm
Found a roundabout way of expressing it.
—Bohemian Magazine.

Not For Him.
"Sloux Falls!" bawled the brakeman. "All out!" But the brakeman was wrong. There was an old bachelor on the train who was going through.—Chicago Tribune.

Tommy's Delight.
"I like to see a little dog
And pat him on the head,
Then tie a tin can to his tail
And see him run!" he said.
—Houston Post.

Damaged.
Algy—Was Willie's suit case damaged any by water in the accident?
Reggie—Yes. Every one of the labels have got soaked off.—Bohemian Magazine.

Short Stories.
Little girl,
Box of paints;
Sucked the brush—
Joined the saints.
—Judge.

Judging by Acting.
Foote Light—They say he is a finished comedian.
Miss Sue Brette—Well, he doesn't act that way.—Yonkers Statesman.

Stay Near the Stove.
While nice to spend the time with her
Who holds your heart in thrall,
Be wise and don't a cold incur
By kissing in the hall.
—St. Louis Republic.

Amador County Descriptive Article

Amador county comprises an area of 548 square miles. It lies on the western slope of Sierra Nevada mountains, and embraces within its territory all the diversity of valley, foothill, and high mountainous lands.

Climate.—The climate of the populous portions of the county is as genial and healthful as can be found anywhere in California. As climate is one of the most valuable assets of this favored state in attracting population, Amador stands second to no county in this regard. It should, and no doubt will in time, when its climatic advantages are more thoroughly understood and appreciated, become a health resort not only for those in less favored states, but for the residents of other parts of California. The temperature alone the central portion rarely falls below 30 degrees above zero in winter, and as rarely rises to 100 degrees in the summer. Snow seldom falls in the settled districts, and never remains on the ground for more than a few hours. Of course, in the high mountain regions of eastern Amador the snowfall is very heavy—which is characteristic of the entire Sierra Nevada range. The summer season is always accompanied with cool nights; permitting of sound, refreshing slumber. Fogs are rare, cyclones are unknown, thunderstorms are infrequent.

Gold Mining.—The county, although rich in other sources of wealth, comparatively untouched, is noted principally for her quartz mines. The deepest gold mines in America are located here. The Kennedy mine is now taking gold in liberal quantities from quartz extracted from a depth of over 3000 feet below the surface, with every indication that the pay-ore extends to a much greater depth. Since the discovery of gold, the county has contributed fully \$100,000,000 to the world's supply of the precious metal. The mines are still yielding at the rate of about two million dollars annually. Nearly all of this wealth is produced by eight or ten mines operating on what is called the "mother lode," stretching clear across the county in a north-easterly direction a distance of twenty miles. The mines aggregate between 400 and 500 stamps, and furnish employment for over 1000 miners. This industry is still in its infancy. The unexplored territory, even along the main gold belt, is far in excess of the ground that has actually been worked or prospected. The county offers today one of the most inviting fields to be found anywhere in the world for the investment of capital in the fascinating business of gold mining, not alone along the mother lode, but also in the almost untouched mineralized country of the east belt, some ten or twelve miles from the main lode.

Besides gold, we have copper, deposits of pottery, coal, marble, slate, limestone, granite, and soapstone or talc—all undeveloped.

Agricultural Capabilities.—The agricultural possibilities equal, if not excel, the mineral riches. The valley lands will produce anything that can be grown in the most favored sections. In the foothill lands all kinds of deciduous fruits thrive; also all kinds of vegetable are raised where irrigation is practicable along the numerous water courses. Further up in the mountains, at an altitude of 2000 to 2500 feet, the soil is admirably adapted for apples and potatoes. A ready market for many times the quantity now raised of these commodities can be found in the various mining towns.

Grape culture and winemaking are becoming important industries, both the grapes and wine commanding a better price than the product of the lowland.

Land is cheap compared with other California lands. Improved farms may be secured for one-fourth the price current in some places. Unimproved lands can be had from \$5 to \$10 per acre. It does not require a fortune to buy a small ranch. There is room for a large addition to our agricultural population. Vast tracts now devoted to cattle ranges might be made the homes of hundreds of prosperous farmers.

Amador has a population of less than 12000. Three fourths of this is concentrated in a strip of three miles above and below the mineral belt.

Jackson, the county seat, has about 2500 inhabitants, and is an incorporated city of the sixth class. Other towns are Sutter Creek, Amador City, Drytown, Plymouth, Volcano, Pine Grove and Oleta. Ione City is the metropolis of the valley section, a thriving town of 1000 inhabitants.

The community is law abiding. Educational facilities are excellent. A schoolhouse is within easy reach of nearly every family. There is one high school, located at Ione.

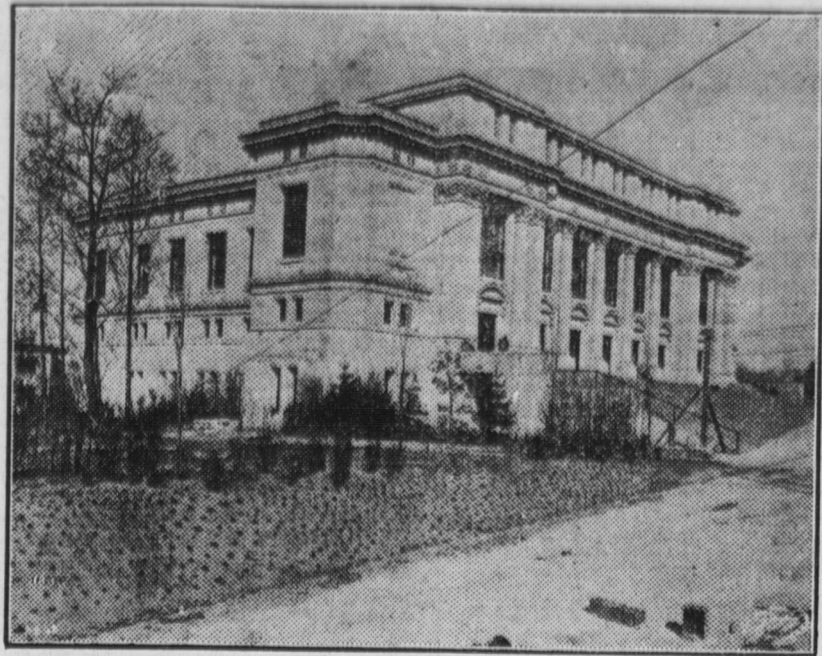

The assessment roll for 1907 is \$5.-800,793, and the tax rate for both state and county purposes \$2 on the \$100.

The Southern Pacific has a branch railroad running to Ione. From this point the Ione and Eastern railroad extends 14 miles further to the mining section.

The various religious denominations and fraternal organizations are well represented.

The power plant of the Standard Electric Co.—one of the largest in the world—is located four miles from Jackson.

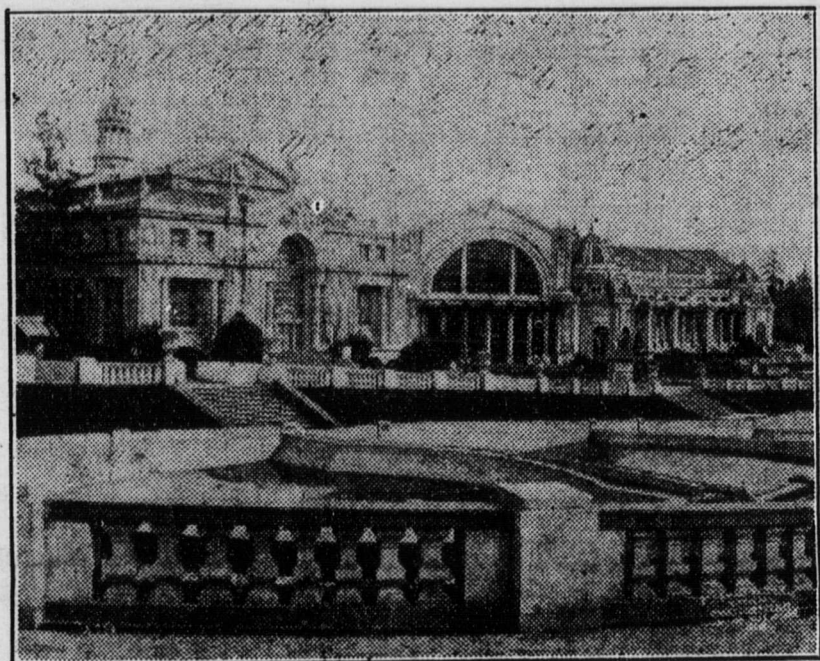

Alaska Yukon Pacific Exposition.

THE AUDITORIUM.

The Alaska-Yukon-Pacific Exposition at Seattle, occupying 250 acres of the campus of the University of Washington, will result in benefits for Washington's seat of learning that the University could not have hoped to secure in many years, had not the great fair of 1909 been planned. So the exposition that will exploit Alaska, Hawaii and the Philippines and emphasize the importance of the growing trade with the Orient will leave, after its gates have closed, a large number of permanent structures to constantly remind the people of the Northwest of the Alaska-Yukon-Pacific Exposition and the place it will occupy in the history of the Pacific as the medium through which one-half of the world was brought in such close touch with the other and a tremendous impetus to commercial intercourse given.

Seven buildings on the exposition grounds will be left for use of the University and the auditorium, one of the finest of this group, cost the State of Washington more than \$300,000. While the exposition is in progress this building will be used for conventions, congresses and conferences, and its hundreds of seats were in place and the building turned over to the exposition management three months before the opening date of the fair.

ORIENTAL PALACE AND MANUFACTURERS BUILDING.

The Palace of Oriental Exhibits and Manufacturers Building have a frontage on Cascade Court and Geyser Basin and look across at Foreign Exhibits and Agricultural Palaces; Yukon Avenue separates these magnificent display buildings, and in the back ground the state buildings of Oregon and California are located.

Construction work on these buildings was completed last year and exhibits are being received and placed in position. The Oriental Palace will house the most valuable collection of Far Eastern art that has ever been sent from the Orient, and will present displays from Japan, China, India, Ceylon, Straits Settlements, French Indo China, Borneo, Java and all the eastern countries of Asia.

The Manufacturers building encloses a vast amount of exhibit space and every foot of this has been engaged for display purposes by domestic and foreign manufacturers. The interest manifested in this department of the Alaska-Yukon-Pacific Exposition is world-wide and competitive displays will be general and comprehensive. Exhibits are being daily received and the heavy work of installation is rapidly being accomplished.

THE END OF THE WORLD AN ETERNAL PROBLEM.

The terrible catastrophe in Italy which caused the inhabitants of the ill-fated city of Messina to believe that the end of the world had come is only a prelude to a small scale of what many eminent scientists believe will be the end of the world. The eternal problem of how the world will end is in the opinion of many a matter for scientific investigation, and it is curious that the majority believe that the earth will open up and fly to pieces in the most gigantic earthquake ever known, an earthquake that will wipe all life from the globe before the actual destruction of the earth is complete, says Cassell's Saturday Journal.

The late Grant Allen firmly believed that the world would end by the crust of the earth eventually giving way beneath the colossal weight above it; and Abbe Dupin, one of the greatest scientists of France, believes that doomsday will begin with a war that will envelope the greatest nations in Europe, this being followed by a plague the like of which has never been known, culminating with an earthquake that will practically shake the world to pieces.

H. G. Wells, whose scientific prophecies are well known, is however, of a different opinion. The world will end, he declares, by its becoming entirely frozen over. It is a well-known fact that every year more ice accumulates around the poles; in short, many millions of tons of ice in excess of that of the year previous settle about the earth's extremities each year, and in Mr Wells' opinion this will gradually extend until the whole world is frozen over and every

thing is thus destroyed.

Several scientists are of opinion that we shall perish by fire, and this old world of ours with us. Nikola Tesla, the great American, is convinced that the atmosphere of the world being so fully charged with electricity, the result will be a gigantic explosion by spontaneous combustion, when the world will be entirely encircled with flames which in the space of a few seconds will destroy all life.

Two of the world's greatest scientists firmly aver that the end of the world will be brought about by astronomical conditions. Take Prof. Marienberg, the noted Austrian student. In his opinion the earth will fly from its orbit and come in contact with one of the other planets that may chance to be in direct line. The earth, being comparatively small, will of course, get the worst of it, and split into fragments at the collision. But, of course, directly the world swerved from the orbit all living things will die, and such an earthquake take place as would completely put the Italian catastrophe in the shade.

Just as interesting in the prognostication of M. Camille Flammarion, one of the greatest living scientists. After many years of study he has arrived at the conclusion that the world will in the twenty-fifth century come across the path of the comet Beila, which crossed our line a few years ago. On this occasion, however, a collision will take place, and Beila being infinitely greater than the earth, a shock may be expected which, he calculates, will be 865 times greater than the shock caused by the collision between two trains, each traveling at sixty-five miles an hour.

Tickling in the Throat

"Just a little tickling in the throat!" Is that what troubles you? But it hangs on! Can't get rid of it! Home remedies don't take hold. You need something stronger—a regular medicine, a doctor's medicine. Ayer's Cherry Pectoral contains healing, quieting, and soothing properties of the highest order. Ask your doctor about this. No alcohol in this cough medicine. J. C. Ayer Co., Lowell, Mass.

Constipation positively prevents good health. Then why allow it to continue? An active liver is a great preventive of disease. Ayer's Pills are liver pills. What does your doctor say?

BIBLE STUDY CONTEST.

May 30th, 1909.

Believing and Doing—James ii:14-26.

Golden Text—Faith without works is dead. James ii:20.

Verse 14—What does James mean here by "faith."

Can a man have true faith, if he is not filled with love for his fellows and doing all he can to help them.

If a man "say he hath faith," what is the test of whether he is telling the truth.

Are there those to-day, who say, and probably think, they have faith, but lacking loving hearts, and the fruits of love, are deceiving themselves.

What is a Christian's proof to himself, that he is not a deceived man in claiming to be in the favor of God.

Verses 15, 16—How do you class those who see people in need of food, and clothing, and do not do all they can to supply the need.

Which person more nearly resembles Jesus, the one who talks very piously, and prays with the needy, but giving them no help, or the one who generously supplies the need without any religious pretensions.

If a man helps the needy to supply their own needs, is that as well or better, than supplying the needs direct.

Is it possible for a church to be doing full Christian service which is not helping the needy, either in its own, or some other community.

Verses 17, 18—Is it possible to show faith without works.

Have all those who, with loving hearts, are engaged in good works, also got saving faith, whether they profess to have it or not, and whether they are members of the church or not, and whether or not they are even orthodox in their views.

Have any, who attend church regularly and profess to be religious, but are harsh with the poor, give nothing to charity, and care nothing for the needy, got saving faith.

Have those got saving faith who pray for the poor and needy, and for the sick and suffering, and yet do nothing to feed the poor or comfort the sick.

Verses 19, 20—Is there any moral merit in mere orthodoxy, or is there any essential moral blame in mere heterodoxy.

Granted a man with the spirit of Jesus, engaged in good works, what does he lose by being heterodox, and what does he gain by being orthodox.

Verses 21-26—When God told Abraham to leave his own country and to start for another that God would show him, was there any other way that he could have faith in God, but by actually starting on the journey.

What is the meaning of, "and Abraham believed God and it was imputed unto him or righteousness."

LOVE is an essential part of faith, and love implies action, or good works, hence is it at all possible for a person to have faith who is not engaged in good works. (This question must be answered in writing by members of the club.)

Lesson for Sunday, June 6th, 1909.

—The Power of the Tongue, James iii:1-12.

LOST CITY EXPLORED.

Details of the first exploration of the lost "City of the Incas" by other than Peruvians were brought to New York Wednesday by Dr. Hirman Bingham, lecturer on Latin-American history at Yale University, an authority on the history of the South American continent. He arrived on the Prince August Wilhelm of the Hamburg-American line's Atlas service.

Dr. Bingham, in a trip across South America, completed only a few weeks ago, was the first foreigner to reach Choquequirau, which until a few months ago no man, according to legend, had seen in 400 years. His journey occupied seven months. He traveled 1000 miles on mule-back and made a side trip to Valparaiso, where he attended the first Pan-American scientific congress as a representative of the United States and of Yale.

"The name 'Choquequirau' means 'cradle of gold,'" said Dr. Bingham, "and the legend says that it was the place where the rulers of the Incas hid their treasures when they fled from the Spaniards in the time of Cortez. They formed a company down there last year which was digging for buried treasure.

"To get there required a week's hard travel from Cuzco, the ancient capital of the Incan empire. Most of the time we were hanging on to the side of a mountain almost by our eyelids. We had to descend into a valley 6000 feet deep, cross an otherwise impassable river by a suspension bridge made of four telegraph wires, wade through a jungle for sixteen miles and then climb up 6000 feet. Choquequirau lies at an elevation of about 13,000 feet.

"I believe that the place was a fort built by the Incas to protect themselves against attacks of the Amazonian Indians. I found traces of fortifications, made measurements, opened two graves and found many interesting relics. The buildings are made not of the finely wrought stone of the palaces in Cuzco, but of roughly hewn stone, cemented together, and the interiors in some cases are plastered. The houses are not unlike in appearance to some of those

of New England—a story and a half high with a gable on one end.

"The old water works remain, and several reservoirs are in good condition. There are three separate groups of buildings besides the fortifications, and on three sides of the place are steep precipices."—New York Herald.

WHEN HER BACK ACHES

A Woman Finds all Her Energy and Ambition Slipping Away.

Jackson women know how the aches and pains that come when the kidneys fail make life a burden. Backache, hip pains, headaches, dizzy spells, distressing urinary troubles, all tell of sick kidneys and warn you of the stealthy approach of diabetes, dropsy and Bright's disease. Doan's Kidney Pills permanently cure all these disorders. Can Jackson sufferers desire stronger proof than this woman's words?

Mrs. B. Boden, of Newmansville, Jackson, Cal., says: "Doan's Kidney Pills have been used in my family with the most satisfactory results. My brother first advised me to try them while suffering severely from kidney trouble. I had severe pains in my back for a long time and finally became so run down in health that I could hardly get around. The kidney secretions were very irregular in passage and gave me great annoyance. I was also subject to headaches and dizzy spells. At last Doan's Kidney Pills were brought to my attention and I procured a box at the City Pharmacy. They helped me from the first and I continued taking them until a complete cure was effected."

For sale by all dealers. Price 50 cents. Foster Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Order To-day!

We can save you from \$5.00 to \$10.00 on a suit or overcoat if you order now. We want to keep busy (between seasons) while others are dull.

The London Tailor.**

Accidents will happen, but the best-regulated families keep Dr. Thomas' Electric Oil for such emergencies. It subdues the pain and heals the hurts.

FROM OUR CORRESPONDENTS

MARIELL.

May 25.—Mrs H. Love took her departure for Oakland Sunday. She was accompanied as far as Stockton by Dave Kerr and Mrs A. Dufrene. Mrs Marchant and son, Merle, of Utah, were the guests of Mr and Mrs Webb Smith Sunday.

John Gubbins is the proud father of another bouncing baby boy.

Mrs Wm. Tyack visited Sutter and Amador City Monday.

Miss Rachel Robinson has returned to her home near Volcano, after a week's visit with relatives at this place.

Bobbie Rieta of Sutter Creek, is working for Al. Dufrene.

Mrs Tom Trudgeon and daughters of Sutter Creek, were the guests of Mrs Frank Hammick last Tuesday.

Fred Seguin has been throwing bouquets at some of the ladies around here lately.

Quite a number of our Martell people attended the Stony Creek picnic last Saturday, and enjoyed a good old fashioned sociable time. A pleasing program was rendered by the pupils, and the teacher, Miss Werner, and all who took part deserve great credit. After the program the guests spread their lunches together under the trees, and it is needless to say all did ample justice to the many good things. Then came the races. The ladies' race was won by Mrs D. Robinson; young men's race, John Ellis; boys' race, Lennie Rader. While the best of all, the peanut race, won by Dorothy Krenmel. The booby prize fell to Miss Mae Rose. Free ice cream was served in abundance. Among those who enjoyed the picnic were grandpa Meyers, aged 91, but spry as a cricket, and Wesley Stowers, also quite an old gentleman, but just as young as he used to be.

Miss Lula Bradigan, John Bradigan and Lorin Gilbert of Oleta, were also among the picknickers. Every one present spoke of the creditable manner in which every thing was managed by the president of the day, Glen Gilbert.

If you expect to get the original carbolicized witch hazel sale, you must be sure it is DeWitt's Carbolicized Witch Hazel Salve. It is good for cuts, burns and bruises, and is especially good for piles. Refuse substitutes. Sold by City Pharmacy, 10 W. Kuhns, prop.

OLETA.

May 21.—We had a terrible wind storm Sunday, and a small sprinkle of rain, which was not enough to do any harm to the down hay.

Mr and Mrs Wilson paid Amador City a visit Monday.

Miss Hazel Smith has returned from her visit and reports having had a very nice time.

Elvin Shealer and wife are on a visit at his mother's.

Lorin Gilbert and Jessie Vose paid Jackson a flying visit last week, it really looks as if there is something in the air. "How about it."

Mrs Mooney of Amador City, is on a visit to her daughter, Mrs W. D. Clark.

John Bradigan and his sister spent a few days with relatives at Stony Creek, and attended the picnic there, which was a success. All there had a very nice time.

Frank Clark was a visitor at Amador City last week.

Miss Zadia Newell, who was at the sanitarium at Sutter Creek so long, is able to be about again, and is now stopping with her sister, Mrs Joe Pigeon, for her health. Fanny.

Harsh physics react, weaken the bowels, cause chronic constipation. Doan's Regulents operate easily, tone the stomach, cure constipation. 25c. Ask your druggist for them.

IONE.

May 27.—The commencement exercises of the high school class of '09, will be held in the pavilion this evening. The entire class, which numbers thirteen, were able to make the percentage which entitles them to their diplomas, and are certainly deserving of credit for their earnest efforts during the past year.

The funeral of Mrs Phil Kennedy was held here after train time last evening. Services were held in the Catholic church, Rev. Father Gleason officiating. The remains were accompanied here from Sacramento, by her daughter and two brothers of that city.

A farewell reception was tendered the senior class of the high school last Tuesday by the lower classes of the school. Dancing was the prevailing amusement, and every one who attended certainly had an enjoyable time.

Mr Neff, the fireman on the S. P., returned last night from a week's vacation. Mr Baily, who was assisting during his absence, returned to the city this morning.

The Ione Circle O. P. of A. gave a reception last Friday night in honor of the newly married couple, Mr and Mrs M. P. Silva. At a late hour refreshments were served and all departed for their homes wishing Mr and Silva much happiness.

Chas. McDonald, who has been visiting in Sacramento, returned home last week.

Will Fithian, who has been on the sick list for the last week is much improved, and able to be at his post of duty again.

Last Tuesday evening while coming home from work, Clarence Carpenter and the misfortune of letting his team run away. The pole broke striking one of the horses, which caused them to run. They were soon beyond Clarence's control, and he was thrown out and the rig ran over him. One of his hands was badly smashed and he received a number of bruises, but still considers himself fortunate that he wasn't more seriously hurt. The team traveled with lightning speed, and were not caught until they reached town. Ioneite.

The most common cause of suffering

Rheumatism causes more pain and suffering than any other disease, for the reason that it is the most common of all ills, and it is certainly gratifying to sufferers to know that Chamberlain's Liniment will afford relief, and make rest and sleep possible. In many cases the relief from pain, which is at first temporary, has become permanent, while in old people subject to chronic rheumatism, often brought on by dampness or changes in the weather, a permanent cure cannot be expected; the relief from pain which this liniment affords is alone worth many times its cost. 25 and 50 cent sizes for sale by Jackson Drug store, Spagnoli, prop.

SHERANDOAH VALLEY.

May 26.—Williams school closed last Friday with a picnic at the school house, and a dance at night. Miss Mabel Wilson, the teacher, gave each of her pupils a box of bon buns, and was presented by them with an ornate clock. Miss Wilson left Sunday morning for Lodi, to visit relatives during part of her vacation.

Mrs Geo. Jones of Mud Springs, has been the guest of Mrs Nettie Bell for a few days.

Miss Marguerite Slavich was the guest of Mrs J. J. Davis last week. Little hope is left for a rain for this season as most of the grain crops and the pastures are beyond any further help. Some hay has been cut, the crop running very light as a rule.

Severe colds seem to be the order of the day hereabouts, the rapid changes of temperature no doubt being responsible. Shan.

The End of the World

should it come to-morrow would flood fully 1-3 of the people suffering with rheumatism of either slight or serious nature. Nobody need suffer with rheumatism for Ballard's Snow Liniment drives away the trouble, relieves the pain instantly and leaves the user as well and supple as a two year old. Sold by Kuser's City Pharmacy.

DRYTOWN.

May 26.—Arthur Goodall, general manager of the Fremont Mine, has gone below on some business affairs.

Joe Thomas and daughter, Mrs Richard Souden, came up from Sacramento last Sunday.

Mrs Geo. Newson and two children are up from San Francisco on a visit to her parents, Mr and Mrs Boe, of New Chicago.

Miss Stella Giannini is visiting her folks, Mr and Mrs Giannini. She expects to be here about two weeks during her vacation. She is studying as a trained nurse at the Fabiola hospital in Oakland.

Mrs Dixon came up last Monday night to visit her grandmother, and also other relatives and friends.

Geo. Matulich has returned home from Butte county, where he has been engaged as foreman at a mine, which has closed down temporarily.

E. S. Barney has sold his ranch and stock, which has been in his possession for a good many years. Mr Barney, who is advanced in years, is still hearty and able, and we all will regret to see him leave, for he has lived many years in Amador county.

Mr Buchanan, manager of the Little Illinois mine, returned from San Francisco, and will make a start on his mine as soon as possible. Mrs Connors from the Fremont, has gone below on a visit to her children, who are at a home near Oakland.

Charles Reed was up from Sacramento a few days last week. Mitt and Gill Dickerman, brothers, started out last Tuesday for the mountains, where they intend to stay all summer. They said they were going over the summit, but it is hard telling. They might go over a few times before they get that far. Hix.

Everybody is likely to have kidney and bladder trouble. In fact nearly everybody has some trouble of this kind. That is the reason why you so often have pains in the back and groin, scalding sensation, urinary disorders, etc.—that's your kidneys. The best thing to do is to get some of DeWitt's kidney and bladder pills right away. Take them for a few days or a week or so and you will feel all right. In this way too, you will ward off dangerous and possibly serious ailments. They are perfectly harmless and are not only antiseptic, but allay pain quickly by their healing properties. Send your name to E. C. DeWitt & Co., Chicago, for a free trial box. They are sold here by City Pharmacy, 10 W. Kuhns, prop.

PLYMOUTH.

May 26.—A farewell dance was given Saturday night, May 22, in honor of Arthur Dach, who left Sunday morning en route for San Jose. The young man intends traveling for a year for health. We all wish him good luck.

Miss Marguerite Slavich left for San Jose Sunday morning.

Mrs Birdie Dugan, who has been visiting relatives and friends in Plymouth, returned to her home in Point Richmond.

George Scharrack, who has been tending bar for J. E. Walton, left Sunday for Placerville, where he intends traveling with Flood's show, as musician we think, as he plays most any instrument.

Ed. Brumfield went to Folsom

Monday, where he has employment.

Robert Coster, who has been visiting in Sacramento, has returned to his home in Plymouth.

Little Gladys Felker has a bad attack of typhoid fever, and is under the care of Dr. Norman.

Clarence Weston and Walter Speakman went up to Tyler's Sunday afternoon on a fishing trip, returning Monday evening with 70 nice trout. It seems Mr Speakman, being small himself, could catch small fish.

Mr and Mrs James Jameson and little daughter, who have been visiting relatives in this town for the past few weeks, have returned to their home in Los Angeles.

Mrs Hazel Chichizola is visiting her mother, Mrs Griffiths, of this town.

Trevor Weston, Moise Roos and Gabriel Roos, accompanied by Mrs Harriet Ponton, drove over to Lodi Sunday evening to Mrs Ponton's home. She has been working for Mrs L. Burke of this town. Wild Roses.

A Happy Father

is soon turned to a sad one if he has to walk the floor every night with a crying baby. McGee's Baby Elixir will make the child well, soothe its nerves, induce healthy, normal slumber. Best for disordered bowels and sour stomach—all teething babies need it. Pleasant to take, sure, and safe, contains no harmful drugs. Price 25c and 50 cents per bottle. Sold by Rubner's City Pharmacy.

DEFENDER.

May 26.—We had quite a rain shower here Sunday evening, which lasted for a half hour or more.

Some of the farmers here are out-ting hay.

W. H. Nichols, W. H. Glenb, Harker and son, and Kimball brothers, have all planted their potatoes.

Deacon Harmon is running a tunnel through the Mill Creek hill for gravel, and we all wish him the best of luck.

Walter Webster, Willis Hoss and A. E. Lessley made a flying trip to Jackson Saturday, and returned Sunday.

A baseball game was played Sunday. The Defender and Volcano team played against West Point and Railroad. The score was 20 to 6 in favor of Defender and Volcano.

Mrs H. Powell and Mrs M. Barnhart were visitors at the Hit or Miss station Sunday.

John Gardener and Roy Werly have finished cutting logs for C. C. Luttrell. Blue Bell.

SUTTER CREEK.

May 28.—Miss Amy Pharis went to Sacramento Saturday to seek medical advice in regard to a very sore and seriously inflamed finger.

Miss Knight of Blair, Nevada, arrived here a few days ago, and is the guest of Mrs Redpath.

Miss Agnes Hodges left Tuesday morning for a month's visit with her sister and other relatives in San Francisco.

Miss Clara Goldsworthy of Sacramento, who has been the guest of Mr and Mrs W. Smith at Kennedy mine for an extended time, arrived here Tuesday morning, and will visit with friends here during June month.

A ten pound boy was added to the home of Mr and Mrs Dan Solari Thursday evening, the 20th instant.

Mrs Dr. A. P. Lewis and little son of Reno, and Mrs Jas. Crilly and son Jimmie, of San Francisco, departed Thursday morning for their homes, after a pleasant visit with their mother, Mrs Mary Payne, and other relatives.

Gustave Schrader returned here Tuesday evening, after an extended absence.

Edward Sturiza left Thursday morning for San Francisco, and while visiting relatives at that place will also seek medical assistance in regard to a hurt received in the mill here some time previous.

John Phipp Jr., and wife of Amador City, are visiting his brother, Harley Phipps, and wife this week. Sutterite.

A healthy man is a king in his own right; an unhealthy man is an unhappy slave. Burdock Blood Bitters builds up sound health—keeps you well.

Eat What

You want of the food you need Kodol will digest it.

You need a sufficient amount of good wholesome food and more than this you need to fully digest it.

Else you can't gain strength, nor can you strengthen your stomach if it is weak.

You must eat in order to live and maintain strength.

You must not diet, because the body requires that you eat a sufficient amount of food regularly.

But this food must be digested, and it must be digested thoroughly. When the stomach can't do it, you must take something that will help the stomach.

The proper way to do is to eat what you want, and let Kodol digest the food.

Nothing else can do this. When the stomach is weak it needs help; you must help it by giving it rest, and Kodol will do that.

AT CITY PHARMACY, JACKSON.

Kills to stop the Fiend

The worst foe for 12 years of John Deye, of Gladwin, Mich., was a running ulcer. He paid doctors over \$400 without benefit. Then Bucklen's Arnica Salve killed the ulcer and cured him. Cures fever-sores, boils, felon, eczema, salt rheum. Infallible for piles, burns, scalds, cuts, corns. 25c Spagnolia's drug store.

ITS ALL IN THE SOUND BOX

The Edison Gem Phonograph has the same sound box as the highest priced one, and sounds as well it will last for years. We never saw one worn out. It sings as sweetly as the most cultivated singer, and renders perfectly the tones of the various instruments of orchestras and bands.

We have secured from the Edison phonograph Co. the right to distribute 100 of these wonderful phonographs and 3600 records for advertising purposes. The lowest cash price anywhere in the world for an Edison Gem is \$12.50 and 36 gold molded records is \$12.50.

Our Special Offer.

We will sell you the entire outfit for \$25.10. Send \$3 in cash and \$2 per month thereafter until paid and the outfit is yours. No interest on deferred payments. Any time inside of a year if you wish to change for a larger Edison phonograph you may do so. Simply pay the difference in easy payments. Don't wait, as many are taking advantage of this offer. McNEIL & CO.

Elks' Building, Stockton, Cal.

IT COSTS \$2,000

sometimes for a skeptical person to learn that a bank is a safer depository for money than a hand bag. That is what it cost a lady recently to learn this bitter lesson. An enterprising burglar who was aware of her foolish distrust of banks watched his opportunity and the money was gone. The savings of almost a lifetime was lost merely because of the foolish fear that the bank would break. Think of the millions and millions of dollars in banks every day and night and the loss by the breaking of a bank is not one dollar in a hundred millions. Don't try to be your own banker. You may make a failure of it.

LOCAL NEWS

J. F. Wilson, Dentist. Hours 9 a. m. to 5 p. m. Phone—Office, black 444; residence, black 394; Jackson.

E. S. Barney of Drytown, was in Jackson Tuesday. He is negotiating for the sale of his large holdings below Drytown, by a trade for property in the city. There is every reason to believe that the deal will go through, in which event Mr. Barney will likely remove to the city. The northern part of the county will miss him, as he has always been one of the most solid and upright men in that section.

Miss Jane Shane, who taught school in a district near Plymouth last term, which closed last week, has secured a school in Sierra county, near Alleghany City, where the recent big strike was made. There is much excitement in that locality. The sum of \$10,000 of pure gold was taken out in a short time.

For Sale.—218 acres of good agricultural and grazing land, at Forest Home. Thirty acres timber land, with at least 1000 cords live black oak. For full particulars apply on premises, or to John Oulds, Jackson, Cal. my 7-t f

Superior Judge F. V. Wood returned home Sunday evening. He had been holding court in Oakland for Judge Waste, of the superior court of that county, for the past two weeks, on account of the regular judge being incapacitated by sickness. Judge Waste was expected to be able to resume his duties on the bench last Monday.

Wanted.—A solicitor to secure orders for the tailoring business. Good salary to the right man, and steady employment. Apply to Wm. Ross, the Tailor, Jackson.

Charles Williams, brother of Mrs. Harper, arrived here Sunday from Delamar mine, Shasta county. He has been here several times before, but not during the last few years. He will likely remain here for a while.

J. F. Solinsky, John Raggio and Mr. Young, who are interested in the Amador Central railroad, came up Sunday night, on legal business in relation to settling up the affairs of the receivership of the I. & E. railroad. They returned to the city Tuesday morning.

On sale for \$3.50 a beautiful lot of trimmed hats, at Mrs. K. L. Delahide's in Well Bldg., Main street.

Mrs. J. Norris of San Francisco, is visiting Mrs. Robert Reed of Welland. This week Dr. Endicott was called to perform a surgical operation on a man named Cherighini, a rancher living 13 miles below Ione. He also treated one Lazozzo at Mokelumne Hill for an abscess on the palm of his hand.

Dr. J. D. Fogarty, dentist, Jackson. Office in Kay's building, Main street. Hours from 9 a. m. till 5 p. m. Telephone, black 363.

California Postcard Views, in colors. Over 3000 subjects comprising Yosemite Valley, Lake Tahoe, Shasta and pieces of interest throughout the state. 25—no two alike—25 cents. W. Fred Gentle, 2212 Sutter St. San Francisco.

Sigmund Deutsch, an expert tailor from Stockton, has concluded to locate in Jackson. He was here Monday and Tuesday last, and has rented the rooms in Webb building formerly occupied by Mrs. Delahide for her millinery business. He left for San Francisco on Wednesday, and expects to be back this evening, immediately start up business. He comes as a first-class tradesman in his line, and is prepared to guarantee his work in every respect.

Treasurer G. A. Gritton was prevented by illness from attending his office most of last week. He had a severe attack of grippe. On Monday he had sufficiently recovered to be able to appear at the office. The effort was too much for his enfeebled health, and Tuesday he was compelled to remain home to recuperate.

Indian Mary, the oldest squaw in the camp at Pine Grove, died there the beginning of last week. The body was buried at the Indian cemetery to miles north east of Jackson. Nearly all the other natives took up their abode temporarily at the Indian reservation, under the superstitious fear to return to the camp immediately after the death.

William Moon, the pioneer, who lives on the Volcano road two miles from Jackson, is very critically ill, and seems to be slowly getting worse. Mrs. H. T. Tripp from Douglas, Alaska, is on a visit to her mother, Mrs. Wallace Kay, accompanied by her two children. They arrived on Wednesday, and will spend several weeks here.

Mrs. Zanders came up from Oakland on Wednesday, called hither on account of the critical illness of her father, Wm. Moon. In company with Mrs. S. Harris, a niece of the sick man, she went on to the Moon ranch the same evening. Mr. Moon is not expected to survive more than a few days.

An Austrian at the Argonaut was severely cut by a rock one day last week, and is under treatment of Dr. Sprague.

George C. Lemoine of Lodi, came up Wednesday, to attend the funeral of D. A. Patterson, whom he had known from early childhood.

Miss Violet Lové of Tuesday severely cut her hand by a broken bottle. The services of Dr. Endicott were required to dress the wound.

Dr. Sprague was called to treat Mr. Andriessovich, of the firm of Woodworth and Andriessovich, Blacksmiths, near the Broadway bridge, the other day. The first finger of the left hand was struck with the hammer, knocking off the nail, and inflicting a painful wound.

Chris Curilich, who has worked in the mines of this county for thirty years, and who was employed in the Argonaut up to the time of the strike three weeks ago, left Wednesday morning for his native land, Austria. He is uncertain whether he will stay there.

George Pires, an inmate of the Preston School, applied before Judge Wood for a writ of habeas corpus, alleging that he was unlawfully restrained of his liberty. He was committed by the superior court of Santa Barbara county. The judge refused to issue the writ.

We acknowledge receipt of a mess of brook trout from L. Lamb, who captured 14 in one of the streams above Lakeau lake last Sunday.

Rent will be charged on idle meters, and after 60 days they will be removed without notice. B. E. Letang.

Read our big clubbing offer with Bulletin in advertising columns.

Card of Thanks.

We desire to thank all those, who by their neighborly acts of kindness and words of sympathy during the sickness and death of our dearly beloved father and husband, have done so much to help in our great sorrow.

Mrs. H. Schroeder and family.

DOCUMENTS RECORDED.

The following instruments have been filed for record in the recorder's office since our last report. We publish a complete list of documents recorded, and must decline to accede to any request to suppress any document from these columns. Don't ask us to do so.

Deeds.—Giovannoni Campi to Joseph Garibaldi, 5 lots in Volcano, \$10.

John Boardman to Joseph Garibaldi, 6 acres near Volcano, \$50.

Klamath Consolidated M. Co., 80 acres, 18-7-9, taxes of 1907, \$26.19.

John Voss, 160 acres 32-8-12, taxes of 1892 to 1900, \$517.24.

Bond for Deed—Joseph E. Dille to John W. Lofstad and Chas. Hogberg, Kankakee quartz claim, Volcano district, expires May 15, 1911, \$2000.

Marriage Law Changed

The last legislature made an important change in the marriage law. As the law now stands both contracting parties are required to present themselves before the county clerk in making application for a license. The marriage certificate, which was formerly filled out by the minister or official solemnizing the marriage, has now to be filled out by the clerk, each party answering the questions as regard age, nativity, whether married before, name of father mother, and other questions.

This certificate is given to the applicants, and handed to the minister performing the ceremony, and by him the date of performing the ceremony is filled in and after signing, is filed by him with the county recorder. The questions to be answered are precisely the same as before, only the duty of filling in the answers devolves upon the county clerk at the time of issuing the license, instead of upon the minister at the time the marriage ceremony is performed. The change requires both parties to be present as applicants before the clerk, whereas only one was necessary under the previous law.

A Smile

is a pretty hard thing to accomplish when you're blue, bilious and out of sorts. There is a sure cure for all kinds of stomach and liver complaints—constipation and dyspepsia. Ballard's Herbine is mild, yet absolutely effective in all cases. Price 50 cents per bottle. Sold by Kuser's City Pharmacy.

For Sale.—Horse, buggy and harness. Horse is good either single or double. Buggy and harness in good condition. Will be sold cheap. For particulars apply to

A. H. Steffen, Amador City, Cal. may 21-1m

Smashes all Records

As all-around laxative tonic and health-builder no other pills can compare with Dr. King's new life Pills. They tone and regulate stomach, liver and kidneys, purify the blood, strengthen the nerves; cure constipation, dyspepsia, biliousness, jaundice, headache, chills and malaria. Try them. 25c at Spagnoli's drug store.

Resolutions By

Slavonians of Jackson.

Whereas certain mischievously inclined elements, agency, or individual faulty tendencies—unfortunately found, if not even nurtured in almost every great commonwealth in the very midst of pure, happy, prosperous and law-abiding solid groups of population, also in this county of Amador and particularly in Jackson—have instigated false rumors, secretly spread malice born of intentional misinformation, fostered factional strife and hatred, incited the ignorant for causes and purposes mysteriously hidden from the intelligent and otherwise noble majority; but manifestly and especially intended to injure in particular the rights and good name of the hardworking, well-meaning Slavonic population, who have thanks to the constitution of this great democratic republic under the standard of the Stars and Stripes; also thanks to their own free volition and noble impulses ever pushing them ahead afar across the ocean into strange and new regions; and certainly thanks to the several mining companies and superintendents who have welcomed them, and with them made Amador county famous.

The Slavonians of said county in union assembled in defense of the integrity of their standard as citizens and workmen, proud of their European lineage, history and constant upright endeavor, equally as well as in defense of all classes' people and institutions of said commonwealth.

Publicly resolve; To assure all concerned of the good intentions of the Slavonic people, who are ever ready to come forward as a body for the protection of the peace and industries of the land, to uphold each and all rights and help spread correct and honest information, to stamp out foul influence of evil minded persons, to assure the mining companies and the several foremen overseeing the work, that they have no grudge against any one, though a lame law is faultily interpreted, and to express their heartfelt thanks in particular to the Zeila Mining Company and to Mr. Detert, the superintendent of the Zeila mine, who labored nearly thirty years for Jackson and the county, and who has found the Slavonians as a whole a people not wanting in all the lawful requirements of time, place and quality.

Special Wireless

From Buena Vista.

A delightful luncheon was given last Sunday at the residence of Uriah Elledge near Buena Vista. Mr. Elledge is a most jolly and entertaining host, while his sister, Mrs. Hamrick, and niece, Miss Pearl, are charming hostesses. The table fairly groaned beneath its load of good things. Those who were fortunate enough to be present at this delightful affair were: Mr. Elledge, Mrs. Kate Hamrick, Mrs. J. C. Krenmel, Mrs. C. Froelich, Mr. and Mrs. Henry Hamrick, the Misses Pearl, Madge, Maud, Myrtle and Orales Hamrick, and Jesse and Clarence Hamrick.

The afternoon was spent in social gossip and plenty of music. Mr. and Mrs. Hamrick and son, Jesse, rendered several pleasing selections on the violin, piano and guitar. Miss Madge Hamrick sang a song and Miss Pearl favored the company with a couple of choice selections on the piano.

Lived 152 Years

Wm. Parr—England's oldest man—married the third time at 120 years, worked in the fields till 132 and lived 20 years longer. People should be youthful at 80. James Wright, of Spurlock, Ky., shows how to remain young. "I feel just like a 16-year-old boy," he writes, "after taking six bottles of Electric Bitters. For thirty years kidney trouble made life a burden, but the first bottle of this wonderful medicine convinced me I had found the greatest cure on earth." They're a godsend to weak, sickly run-down or old people. Try them. 50c at Spagnoli's Drug Store.

Fire in Ione.

A fire broke out about 2 o'clock yesterday afternoon in the hotel of J. Haller in Ione. It was a frame building and the flames assumed alarming headway, creating much uneasiness for the business section. The hotel was completely destroyed, and considerable damage was done to the Woolsey store and express office adjoining and to other buildings nearby. The loss will probably reach \$10,000.

The Vacant Recordership.

A special meeting of the board of supervisors has been called to meet in Jackson on Tuesday next for the purpose of appointing a county recorder, vice D. A. Patterson, deceased. It is up in the air at present as to who will secure the prize. Tom Ryan, who was defeated for coroner at the last election, is a candidate. Several others have been mentioned, and no doubt some aspirants will be in evidence from outside districts.

Unclaimed Letters.

J. D. Vainguard, A. J. Abraham, Arturo Belluomini, Mrs. Dorothy Devereaux, B. Centino 2, F. Doppe, Golub Conocovich, N. J. Coon, Mrs. E. Mami, Joseph Thomas.

How's This? We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. Cheney & Co., Toledo, O.

We, the undersigned, have known F. J. Cheney honorable in all business transactions financially able to carry out any obligations made by his firm. Walding, Kinnear & Marvin. Sold by all druggists.

SUPERIOR COURT

PROCEEDINGS

HON F. V. WOOD, JUDGE.

Estate of Joseph Manley—Final account settled.

Estate of Maria Corotto—W. J. McGee appointed administrator, bond of administrator filed; notice to creditors ordered published.

Estate of Joaquin Soares—Decree made assigning the whole of the estate for the benefit of widow.

Estate of Maggie Hearty.—Will admitted to probate. Bond of executor fixed at \$1500.

Estate of Geo. H. Rinehart.—Final account allowed.

Estate of Orville C. Randolph—Mary Lithgow appointed administrator, upon filing bond in the sum of \$4000.

Estate of Spiro Lepetich.—Will admitted to probate. Amelia Lepetich appointed executrix without bonds.

Union Trust Co. vs. Ione and Eastern Railroad Co. Hearing on confirmation of sale; said sale confirmed. Final account of receiver settled and allowed. John Raggio as receiver, was allowed \$1930 as fees; F. J. Solinsky and E. B. Young, attorneys for receiver, allowed \$2500 attorney's fees.

Dufrene vs. Allen Estate Co.—Continued until June 1.

W. A. Carter vs. John McGrady, as administrator of estate of W. H. Putnam. Suit to quit title to 160 acres in 14-8-11. Answer filed by both parties, defendant denying any interest in land described. Trial had, and decree granted as prayed for.

Adelaide Laity vs. James J. Laity. —Final decree of divorce granted.

Maud E. Whelden vs. Edw. H. Whelden.—Decree of divorce granted plaintiff.

New Cases

W. J. McGee vs. A. M. Bergevin et al, a corporation.—(On appeal from justice court of township one. The complaint recites that on the 1st day of January, 1908, defendants became indebted to plaintiff in the sum of \$500; thereafter there was paid \$250 on this indebtedness. Suit was brought in the justice court to recover the balance of \$250, with interest at 7 per cent, and for costs. The answer sets forth that the justice court had no jurisdiction to try said cause of action, as the debt was not incurred or made payable in the county of Amador; that neither of the defendants resided in this county, but have their place of business and residence in San Francisco; and furthermore that the plaintiff for the last five years past has been a resident of San Francisco, and has during that time voted in said city. Furthermore, the answer alleges that in May, 1907, plaintiff made a bet with defendant A. M. Bergevin, that a certain mining stock would not by the 1st of January, 1908 reach a certain quotation, and that if said stock did not reach said quotation value defendant would forfeit his check for \$500, which was left with a stake holder chosen by the parties to hold the same in furtherance of said bet. The said check was drawn on the California Safe Deposit and Trust Co., which was then supposed to be solvent, but before January 1st, 1908, the bank failed, and became bankrupt; that the mining stock referred to was not quoted at the figure named on the day stated, and plaintiff was entitled to, and did receive the same from the stakeholder; and in addition has received from A. M. Bergevin \$250 in full discharge of any obligation by reason of said bet. The case was tried before justice Goldner on April 8, 1909, and judgment there after rendered for plaintiff for \$250 and interests, with \$17 costs. From this judgment defendant appeals on question of both law and facts.

Guardianship of Ruel Howe Rinehart.—Otis W. Rinehart petitions for letters of guardianship. The said Rinehart is a minor, aged 7 years, residing with petitioner near Pine Grove, and the owner of real and personal property valued at \$3763.40, consisting of an undivided one-third interest in real estate in Amador county, one lot in Stockton addition, and two lots in Richmond.

Estate of Alexander Orr.—John

Or petitions for letters of administration. Deceased died on May 13, last leaving personal property valued at \$1470, and real estate consisting of 320 acres in 12-7-9. The heirs are Margaret Orr, widow, Mary Lahiff, both of Amador county, Jane Chase of Galt; Margaret Muehl, of Tracy; Alice Yager, Jessie Orr and John Orr, all of Amador county, all children of deceased.

FOR SALE—Good nine room house seven acres of land, barn, shops, wood house, engine house, etc.—Oleta. Inquire at Ledger office.

From Our Exchanges.

All December love isn't frost-bitten. We don't know how old Daniel Pennington, a Calaveras county farmer, is, but he certainly is having a frenzied search made for the 72-year-old wife whom he married in Stockton a year ago and who deserted him last January. His loss is made even harder to bear because he has reason to believe that she has transferred her ancient but well-preserved affections to a youngster of 80 who lives in Oakland. Not only that, but the giddy thing is accused of marrying her newest affinity without first going through the form of getting a divorce from the Calaveras hubby. When the strong arm of the law grasps Mary—that's her name—she will doubtless plead lack of time in which to secure a legal separation, offering as supporting evidence to this defense the New Testament and an insurance company mortality table.—Union Democrat.

The lone Creamery turned out 20 tons of butter in the month of April, so the Echo is informed.—Echo.

It comes to our knowledge that every mine in this county, save the Fra in Summersville district, has adopted the eight hour rule. A superintendent of one of the prosperous properties stated to us that his men do as much work in eight hours as they did in ten and do it easier, better and more cheerfully.—Banner.

The state bureau of labor statistics has begun to compile a pamphlet dealing with the employment of Japanese in this state. Each employer of that race will be required to supply information as to the number of Japs hired by him the sex, rate of wages, whether under contract or by day labor, how long they have been in service and if they superseded whites, and if so, why.—Banner.

We learn through Dr. F. H. Harding, who was called to attend Dave Lampson in the case of laudanum poisoning, as told in the Prospect last week, that the poison was not taken with suicidal intent. It was one of those cases with nearly fatal results arising from a man's administering dangerous drugs without due knowledge. Mr. Lampson took the laudanum for the purpose of relieving insomnia, but not knowing the proper amount took a toxic dose.—Prospect.

After long years of waiting the electric lights were set blazing in lone last Saturday. The more progressive of our people have been laboring to attain this object since the Standard Company got its plant in operation, but there was a hitch in negotiations somewhere, of which the writer is without knowledge. Recently Mr. Downs secured control of the line entering lone, and at once began operations to bring the current in here, which culminated in the fighting up of several business places Saturday. To many it was a thing to be curious about, and they went from place to place to see how things looked under the new regime.—Echo.

News was brought to our town that the Utica Gold Mining Company of Angels will prosecute the work on their large reservoir in the mountains this summer. This work was suspended last year and we all hope that rumor is founded that it will be resumed this summer.—Prospect.

Ed. Leonard has closed his term of school in Volcano, Amador county, and returned to San Andreas to spend vacation with his parents.—Citizen.

The last legislature added another tinker to the marriage law. In addition to the existing formula the man and woman must appear when the license is obtained and swear to race, color, ages, names, surnames, birthplaces of themselves as well as that of their parents, also maiden name of their mothers. Registry of marriages will be an entertaining history at the end of the year for it will contain many ludicrous answers to the questions.—Banner.

In his notice to taxpayers the assessor of Amador county has announced that all timber lands in that county will be assessed at \$5 per acre for the present year. No distinction is made between large and small holdings, and no favoritism is in any way allowed to enter into the valuation of unimproved mountain lands. The action of the Amador assessor could be followed with advantage by assessors of other counties in northern California.—Republican.

Now Is The Time

to make up your mind to have that "Photo" taken. Don't put it off any longer—you'll never be any younger or look any better than you do right now. Call at Logan's 15 S. San Joaquin Street, the next time you are in Stockton, and let him fix you up. Then you can agreeably surprise your friends by giving them a likeness of yourself. Best workmanship—lowest cost.

For a burn or scald apply Chamberlain's Salve. It will allay the pain almost instantly and quickly heal the injured parts. For sale by Jackson Drug Store, Spagnoli, prop.

DOING THE DOGS.

Marysville Sets an Example Other Towns Should Follow.

At the regular weekly meeting of the board of trustees of the city of Marysville Monday night, a new ordinance was passed relative to the keeping of dogs in that city. Formerly the license on dogs was \$1.50 per year for males and \$2 on females, with only a small percentage of the owners paying the tax. The result was the same as it is in Placerville, a multiplicity of worthless curs. The merchants of Marysville and their patrons united in a demand that existing conditions be remedied, and that the number of dogs hanging around the business part of town be greatly reduced. The new law forbids the running at large of any canines in certain prescribed business limits of the city. The license is raised, being \$7.50 on female and \$5 on male dogs per annum, and the penalty to recover unregistered dogs is \$3 and \$1 respectively. To save his dog from the poundmaster in the restricted district the owner must keep him tied up, and go out with him in leash when the dog is on the street. The trustees of Placerville would relieve the business portion of this city of a disgusting nuisance by adopting and enforcing a similar ordinance, and the green grocers and their customers would have occasion to rejoice and be thankful.—Republican.

Biliousness and Constipation

For years I was troubled with biliousness and constipation, which made life miserable for me. My appetite failed me. I lost my usual force and vitality. Pepsin preparations and cathartics only made matters worse. I do not know where I should have been today had I not tried Chamberlain's stomach and liver tablets. The tablets relieve the ill feeling at once, strengthen the digestive functions, purify the stomach, liver and blood, helping the system to do its work naturally.—Mrs. Rosa Potts, Birmingham, Ala. These tablets are for sale by Jackson Drug Store, Spagnoli, prop.

In Blackstone's Time.

Those pessimists who believe in the retrogression of the world should study the laws of the past centuries. Man is at least more merciful now than then, and probably better in other particulars. When the much quoted Blackstone was tabulating English laws in 1763, there was 160 offences punishable by death. These included such misdeeds as growing tobacco, cutting trees, stealing linen put out to dry, etc. A particularly fierce death was planned for the person guilty of high treason. The law condemned the traitor to be cut down when half hanged, to be disembowled and have his intestines burned before his face. And history records that these fierce laws were frequently enforced. It was to evade such unjust laws that judges and lawyers invented the technicality and long delay, but their use, unfortunately, didn't pass when laws were shaped along the lines of justice.—Atchison Globe.

Phears' Express.

Ring up Sam Phear for prompt delivery of trunks, baggage and express packages. Rates reasonable. Leave orders with P. L. Cassinelli, phone Main 35; and Express office, Main 34; residence Black 374.

Do You Think

For Yourself?

Or, do you open your mouth like a young bird and gulp down whatever food or medicine may be offered you?

There are an intelligent thinking woman. In need of relief from weakness, nervousness, pain and suffering, then it means much to you that there is one tried and true honest medicine or known composition sold by druggists for the cure of woman's ills.

The makers of Dr. Pierce's Favorite Prescription, for the cure of weak, nervous, run-down, over-worked, debilitated, pain-racked women, knowing this medicine to be made up of ingredients, every one of which has the strongest possible endorsement of the leading and standard authorities of the several schools of practice, are perfectly willing, and in fact, are only too glad to print, as they do, the formula, or list of ingredients, of which it is composed, in plain English, on every bottle-wrapper.

The formula of Dr. Pierce's Favorite Prescription will bear the most critical examination of medical experts, for it contains no alcohol, narcotics, harmful, or habit-forming drugs, and no agent enters into it that is not highly recommended by the most advanced and leading medical teachers and authorities of their several schools of practice. These authorities recommend the ingredients of Dr. Pierce's Favorite Prescription for the cure of exactly the same ailments for which this world-famed medicine is advised.

No other medicine for woman's ills has any such professional endorsement as Dr. Pierce's Favorite Prescription has received. In the unqualified recommendation of each of its several ingredients by scores of leading medical men of all the schools of practice. Is such an endorsement not worthy of your consideration?

A booklet of ingredients, with numerous authoritative professional endorsements by the leading medical authorities of this country, will be mailed free to any one sending name and address with request for same. Address Dr. R. V. Pierce, Buffalo, N. Y.

A daily paper—Bulletin—and Amador Ledger for \$3 in advance.

GLOBE SIGHTS.

Some girls have the married woman whine.

People always respond promptly to a mad dog scare.

Every man believes in lots of things there is nothing in.

When an old girl needs spectacles, how she fights the idea!

When a Christian scientist is sick, she says she is taking a rest.

A widow is more fascinating than a girl before marriage.

There are many sides to a story as there are people who tell it.

Next to the sultan, the biggest joke on earth is a college magazine.

Every boy believes that some day he will be able to lift half a ton.

Some people turn to religion for consolation; others turn to drink.

What is known as "strong will power" is usually pure devilishness.

A man can eat onions and still find some one who loves him, but a woman can't.

Families with babies and families without babies are so sorry for each other.

Have you that tired feeling? Seven complete cures for it are advertised in this issue.

What a convincing sign of weakness it is in the other fellow to show signs of irritation!

A girl is as patient in trying to be good looking as a woman is with a bad husband.

People who say they are not jealous, are trying a bluff they cannot successfully work.

After a man marries, the only distinction he can hope for is that of being a good provider.

When a boy is named Charles Sumner, people naturally expect that he will become a lawyer.

It always makes a furniture man furious if loafers occupy the chairs in front of his store.

What has become of the old-fashioned mother who, in weaning the baby, put alum in it?

Don't expect to make every "scheme" go. If one in twenty "goes," you will be doing well.

There is usually something wrong with the man who changes his business two or three times a year.

A shepherd dog thinks of nothing but of sheep, but as there is all kinds of dog in a cur, a cur thinks of everything.

Every woman believes that her horse, her cow, her cat, her dog and her bird, "know exactly what you say to them."

When a woman looks all right, and no other criticism can be made, other women say: "Did you notice how her skirt hung!"

The manager of a successful picnic never so thoroughly covers herself with glory that there isn't room for a few chiggers.

The women regard it as nothing against a man if he has buried several wives, providing he keeps their graves looking trim.

When you receive a letter from a woman, it is always safe to bet that you will find this sentence in it: "I am not at all well."

It is a lesson that one of them has to learn: If the wife doesn't look more patient five years after marriage, the husband does.

It makes no difference if her husband can afford it, or not, every woman goes on a journey if a fortune-teller told her she was going.

When the women say of an attractive woman that she must have hypnotic powers, it is their way of saying she isn't good looking.

When married people do not look squarely at each other when they speak, and refer to each other as "he" or "she" there is trouble in the air.

It is an easy matter to make a dream hero of an ordinary man of the girl, who is doing the dreaming, doesn't darn and cook steak for him.

Shiftless people leave things out in the rain, and then complain that nothing is made as strong and durable in these degenerate times as in the good old times.

This is the season of the year when a woman turns the house upside down and inside out for the purpose of putting the bed where the stove used to be.

How long do people talk about a "sensation?" Seldom more than a day. The day after the sensation is announced they "talk it over," and then forget it.

We cannot get up much enthusiasm over lettuce as a food. Still, we know nice men who are fond of lettuce, and who are very proud of a salad they make to eat with it.

Art note: Plate rails have gone out of style, and the woman who has plates that cost as high as 25 cents each will hereafter have to stack them like the common kind at 50 cents a dozen.

The children are playing with such large dolls these days that some night when a thief breaks in it will be to get the doll's wardrobe. Its clothes being new, always good, and large enough for any of his children.

THE KANGAROO GIRL.

Her features are peachy, her eyes are bright.

Her lips are for kissing that clasp and web.

Her neck is a carving of creamy white, But

Why Does She Walk Like A Kangaroo?

Her hair is a midnight of maddening joy, Her form is a Psyche's, and swains would sue,

And Cupid would capture, the wise young boy,

Except That She Walks Like A Kangaroo!

Her mother, I think, doesn't know she's out.

For mothers are wise and discreet and true, And if they but knew what their girls are about

Not One Would Thus Walk Like A Kangaroo!

—Robertus Love in Judge.

After the Honeymoon.

Husband—My dear, are you not courting trouble by being so friendly to this young man?

Wife—No, my dear. I have already married it.—Meggendorfer Blatter.

His Shrewd Idea.

"Who is the sour looking girl with the heavy underjaw?"

"That's the only daughter of old De Milyuns."

"And who is the dainty bit of sweetness with the blue eyes and golden hair?"

"That's the chaperon."

"What's the explanation?"

"Why, it's old De Milyuns' clever idea. He thinks his Jane will be perfectly safe as long as Miss Blossom is around."—Cleveland Plain Dealer.

Equine Repartee.

"Those lovelorn couples always hire you to draw their cutter sleighs!" remarked the truck horse.

"Yes," laughed the old white nag, "but it seems to me instead of being attached to a sleigh I belong to an automobile."

"Automobile? Why so?"

"Well, when I draw those lovelorn couples ain't I a 'sparkling plug'?"

And the horse laughs that echoed through the stable awakened the drowsy hostler.—Chicago News.

Friendly Advice.

"If I ever marry," said the bachelor who was beginning to be old, "I shall be careful to pick out a lady whom I can treat as my equal."

"Oh, say, old chap," answered the married man, "I wouldn't do that if I were you. I can tell you from experience that a woman who would submit to such treatment wouldn't be worth having around the house."—Chicago Record-Herald.

Why He Ate It.

"Jane, there was a whole pie in the pantry. What became of it?"

"My young man called on me last night, ma'am."

"And did he eat all that pie?"

"He was forced to, ma'am. There was so very little variety to choose from, ma'am."—Cleveland Plain Dealer.

Neighborly Inquiry.

"My husband never falls when he leaves home in the morning to kiss me goodby."

"Don't you ever have the fear that his heart may not soften enough during the day to make him come back again at night?"—Washington Star.

Possible Breakdown.

Pearl—Her father heard she was going to elope in an automobile, and he was furious.

Ruby—Indeed!

Pearl—Yes; he said automobiles could not be trusted. Advised her to elope in a cab.—Houston Post.

Wanted—An Opportunity.

Young Wife—Don't you admire a man who always says the right thing at the right time?

The Spinster—I'm sure I could if I ever have the pleasure of meeting such a man.—Chicago News.

Why Else?

She—Why do they refer to locomotives as "she?"

He—I suppose it's on account of the trains they drag.—Chaparral.

Undoubtedly.

"Why, oh, why, are some people so strenuous?"

"Because some others are so shiftless."

Lesley Dental Cream

An Ideal Tooth Paste

Perfect for Teeth and Gums

SCIENTIFIC MISCELLANY

Reported weekly for the Ledger.

Bodily Effects of the Wireless.—Cooling Timbers—Odors of Metals.—Cork Lined Rain Coats—Seeking the Clearest Sky.—A Prize Theory of the Earth.—Smothering Oil Fire with Foam.—One of the Other Senses.—A New Time Teller.

Like other modern occupations, wireless telegraphy has brought special disorders to man. In the campaign in Morocco, the wireless telegraph operators of the "Des-cates" of the French Navy have been pretty steadily employed, and Dr. P. Bellile, the surgeon on board reports that the Hertzian waves have developed various maladies among these men. The eyes were much affected, cases of slight conjunctivitis, keratitis and leukoma being common. This was due to the very powerful action of the ultra violet rays, and the wearing of yellow or orange glasses was advised. Another ailment set up was eczema, of which there were two cases—one of the wrist and one of the eyelid—both difficult to cure. A particularly uncomfortable case was that of an official who had worked the wireless telegraph several years, but who suffered from painful palpitation of the heart after using the sending instruments for any considerable time. Dr. Bellile is inclined to attribute also to wireless telegraphy much of the nervous derangements now becoming rather common among naval men.

The making of ice goblets, which cool beverages as they are served, has been so perfected by H. D. P. Huizer, at his summer resort factory near The Hague, that 100 per hour can be made with one horse-power, only a small refrigerating machine being needed to supply the cold brine. The mold is of special metal, with a core of porcelain, and after pouring in the water the whole is submerged in the brine at 40 degrees below zero for six minutes, then passed for a moment to a special heater, when the goblet is pushed out and caught in a paper holder. Each goblet contains half a pint. It can be filled only once, but will hold the beverage half an hour in hot weather.

Every metal is believed by Grutin, a German chemist, to have its peculiar odor, which he regards as a gaseous transformation product. He has made some of the odors perceptible for a few moments at intervals by heating the metals to 122 degrees Fahr.

Cork tissue, or "tissue-liege," the novel waterproof fabric now being made in France, is ordinary cloth with a lining of cork only 1-250 of an inch thick, and is a substitute for rubber cloth that is claimed to be free from most of the defects of that material. Before being sliced into thin layers, the cork is freed from its resinous matter, thus becoming very flexible. The thin sheets are then pressed into the outer cloth, forming a perfect lining for cotton, wool, silk, ramie, felt or leather and the resin-freeing treatment has made the cork so pliant that it may be folded without breaking. The outer cloth or other material is unchanged in appearance. A garment from the cork-lined fabric is soft and comfortable is perfectly proof against water, does not deteriorate like rubber cloth, is very light, and has no odor. When desired, another lining—of cloth—may be used to cover the cork layer.

To see Mars and other heavenly bodies better is an attempt of greater promise than efforts to telegraph to worlds of which we know so little. The earth's atmosphere varies greatly in clearness, and, while American astronomers have established several observatories in very favorable localities, it appears that just the best spot for a great international observatory—where the world's supreme effort at looking outward can be made—has not yet been determined. A study is now being begun of the conditions in the Karroos, or elevated plains of South Africa, near the scenes of the Boer war. At a number of stations estimates of cloudiness will be made on a uniform scale, steadiness of the air will be adjudged by such observations as those of double stars, and photographic tests will be made by star trails. These sensitive methods are expected to show whether the air is better for seeing than that of other places known.

For the best essay on the earth's interior, the University of Jena has awarded a prize to M. Thieme, whose theory is thus outlined: The mean density of the earth is known to be more than five times that of water. As the surface rocks have an average density of only 2½ and water of 1, the interior must have a density of

about 7.7—that of iron. It is fairly certain also that the rigidity is slightly greater than that of steel. He concludes that the earth's crust is about 930 miles thick, instead of the 30 miles of the common estimate, and that it encloses a very dense and rigid core that he calls the bary sphere.

The new German method of fighting fire in light liquids, like benzine or gasoline, consists in covering the surface with a layer of foam containing an inert gas, thus cutting off the air and making combustion impossible. The approved apparatus made by a Prussian company near Molden, as described by Consul T. H. Norton, consists of a simple metal cylinder, divided into two chambers, and provided with a long spout. One chamber is charged with an aqueous solution of potash alum and sodium sulphate; the other, with a solution of sodium bicarbonate, sodium sulphate, and licorice root extract. As the two cylinders are inclined or reversed, the two solutions mix as they issue from the spout, and the chemical reaction between the alum and bicarbonate gives a prompt evolution of carbon dioxide, converting the licorice solution into an exceedingly stiff and persistent foam. Even when the burning liquid has become so hot that its fiery vapor bubbles up through the foam, the carbon dioxide rapidly cools it. In a test by the Hanover fire department, 18 gallons of benzine—partly in a shallow iron pan and partly scattered on the ground—was allowed to burn three minutes, and then received the contents of two foam extinguishers, which quickly arrested the fire. When the foam was removed and fire relighted, water from a 2-inch hose was insufficient to check the flames, which spread rapidly endangering near-by buildings.

Bees return to their hives in a direct line when they have been carried away and liberated, up to two miles. This has been supposed to be due either to the sense of sight or of smell, but the experiments of Gaston Bonnier have proven that neither sight nor smell can serve the purpose, and that bees have a special "sense of direction." This sense is not in the antennae.

A novel luxury for the hotel bed-chambers is a new signal apparatus that gives the exact time at any minute. A small telephone receiver is placed near the head of the bed or even under the pillow, and pressing a button causes a set of gongs to strike, announcing through the telephone the hour, quarter, and number of minutes past the quarter.

Bad attack of Dysentery Cured

"An honored citizen of this town was suffering from a severe attack of dysentery. He told a friend if he could obtain a bottle of Chamberlain's colic, cholera and diarrhoea remedy, he felt confident of being cured, he having used this remedy in the west. He was told that I kept in stock and lost no time in obtaining it, and was promptly cured," says M J Leach, druggist, of Wolcott, Vt. For sale by Jackson Drug Store, Spagnoli, prop.

Special Small Ads.

Advertisements under this head, not exceeding 5 lines, will be inserted at 50c per month, or 5 cents per line for less than one month.

ALL kinds of Blanks for U. S. Land Filings—Homestead, Timber and Mineral blanks—may be had at the Ledger office; also deeds mortgages, mining locations, proof of labor; and other legal blanks kept for sale.

Mining Signals on cloth, required to be posted in all mines, for sale at the Ledger office.

Receipt books, location blanks, deeds mortgages, promissory notes, etc. for sale; also mining signals on cloth, graduation diplomas, at the Ledger office

White Leghorn Roosters for Breeding \$1 to \$1.50 each. Jasper Johnson, Ione.

Acknowledgment blanks for notaries, specially printed for Amador county, may be had at the Ledger office. Price 50c per packet of 50.

Furnished Rooms to let; inquire at Ledger office.

Copies of the license ordinance of the City of Jackson in pamphlet form may be had at the Ledger office; price 15c. each.

FOR RENT—Three furnished rooms for light housekeeping on the Mason tract. Apply at this office.

For Sale—Lot of benches, formerly used in Webb hall; 6 and 8 feet long; suitable for show place, churches, etc. Will be sold cheap; apply at Ledger office.

RAILROADS wants young men for telegraph and station service; good positions guaranteed. Address Telegraph dept., Hibernia building, Market and Jones sts., San Francisco.

Pioneer flour is the best; have no other.

"LO" AT THE PHONE.

Any of His Tribesmen Will Do to Answer His Call.

The Indians are great on using the telephone. They have but little or no use for the local boards, their calls being over the long distance. They do not put in a call for the individual. They do not ask for White Eagle at Canton or Flying Cloud at Darlington. The call is for "any Cheyenne." The same is true as to the Arapahoes. Any member of the tribe serves.

An Indian puts in a call for any member of his tribe at Canton, Darlington, Colony, Lawton or any point. It is "up to" the manager to go out on the street and pick up an Indian. Any one will do, so he is of the tribe asked for. He is put up to the phone and the talk proceeds. The talk being in Indian, no one knows what it is about.

If an Indian, say, in Clinton wants to reach one of his people, say, forty miles from Canton or any other given point, he calls for one of his tribesmen, tells him the message he desires delivered, and it is his business to deliver it, even though it requires a night trip and in a storm.

A little Indian baby died near Clinton last year, and his mother desired that her relatives attend the funeral services. They lived out on the prairie northwest of Canton. The telephone was used and a member of the tribe directed to deliver the message to the mother's relatives. It was delivered by a courier across the prairies and canyons, and the relatives came in over the Orient next day.

Last summer a call came to Clinton for a Kiowa that was a poser for the manager. However, he found upon inquiry among the Cheyennes that there was one who had lived among the Kiowas and spoke the dialect. He was put up to the phone and received the call.—Clinton Cor. Dallas News.

Seedless Grapes.

What's become of the "coreless" apple? Twenty years ago it was announced as a discovery or a development calculated to revolutionize the orchard industry. Of late we hear less about it. A little later the "thornless" blackberry appeared on the horizon. It certainly was thornless, but somehow it failed to drive the ferociously armed brambles of the berry gardens into the desert. It is still produced, but the older kinds are yet much more common. Now the "seedless" grape bids for favor. Such a fruit would surely "meet a long felt want." If the quality and flavor of the few thus far grown can be perpetuated and it proves remuneratively productive and capable of "standing up" for shipment there is a big future before it.—Country Life In America.

Camille Flammarion's Home.

M. Flammarion, with his wife, who, by the way, is also a keen thinker and her husband's constant assistant, lives in a chateau at Juvisy, built right on the spot chosen by Louis XIII. to erect a royal residence. Besides being an admirable housewife, Mme. Flammarion is one of the charter members of the Disarmament league. Before Louis XIII. cast his eyes on the place there was a chateau there. Napoleon stayed in it on his way to Fontainebleau. The mansion was acquired later by an amateur astronomer, who had an observatory constructed on the grounds. When he died he bequeathed the entire property to a man whom he had never seen. This man was Camille Flammarion.—"Memoirs of Loie Fuller" in New York Herald.

To Stop Hiccoughs.

Dr. Louis Kollipinski reports the arrest of persistent hiccough by depressing the tongue. A patient was attacked by hiccough which had persisted for four days before being seen by the doctor. He complained of the fullness in his throat, a condition which he thought the result of the hiccough. He was directed to sit up, and with a large spoon handle the tongue was pressed down and back with steady force to allow inspection of the fauces. Firm pressure on the tongue with the hope of further noting the action of the palatal muscles was continued, when, to the doctor's surprise and the patient's astonishment and joy, the hiccough ceased. When the hiccough returned the patient himself stopped it by using the spoon handle.—London Express.

The Flat Wheel.

The enormous energy developed by a flat spot in a wheel has been estimated by Professor Hancock of Purdue university. He finds that a flat spot two and one-half inches long on a thirty-three inch wheel, carrying a load of 6,000 pounds at thirty miles per hour, will deliver a blow to the rail of more than 1,000 foot pounds. The same flat wheel supporting a fifty-five ton interurban car running sixty miles per hour would deliver a blow with an energy of 9,500 foot pounds. Such a flat spot would be produced by wearing off less than five one-hundredths of an inch of metal.—Scientific American.

The Atmosphere of Mars.

Professor Percival Lowell, the astronomer, says that the assistants at his observatory at Flagstaff, Ariz., have been able to determine that there is measurable water vapor on the planet Mars and that the atmosphere of Mars affects the spectrum in the same way, though only one-fifth as much, as does the earth's atmosphere. There has been much controversy with reference to the atmosphere of Mars and its qualities. Those scientists who disbelieve in any life on the planet have known that their point could be proved if the absence of an atmosphere should be shown.

FRIDAY.....MAY 28, 1909

School Apportionment.
Jackson, Cal., May, 22, 1909.

To the Boards of Trustees of Amador Co.
Ladies and Gentlemen:—Following is a report of the second apportionment of county money for this school year. The County Auditor reports that there is \$6730.60 for apportionment; to this has been added the balance remaining in the county fund, \$62.31, which gave a total of \$6792.91. Of this amount I have apportioned \$6272.84, leaving a balance of \$520.07 in the unapportioned county fund.

The next apportionment will be in July, and will be of state money. Respectfully,
W. H. GREENHALGH,
Superintendent of Schools.

Anglican and Eastern Orthodox Churches Union.

We have been handed by the Rev. Sebastian Dabovich, representing the Serbian branch of the Orthodox church, a circular in relation to the union of the Anglican and Eastern Orthodox churches. An American branch of this organization was formed on October 13, 1908, in New York City. Its purpose is to unite the Anglican and Eastern churches. The Anglican president is the Right-Reverend Bishop of Gibraltar, and the Eastern Orthodox president is the most Reverend Archbishop of Riga, Russia. At the meeting in New York, letters were read from prominent churchmen of both organizations warmly endorsing the objects of the Union, among these was a communication from Rev. Sebastian Dabovich, representing the Serbian church, who is at present looking after the church interests in California, with temporary headquarters in Jackson, where he expects to stay until November next.

Wants Hearing of Le Doux Argument.

District Attorney McNoble, of Stockton, hopes to secure from the supreme court a rehearing in the case of Mrs Emma Le Doux, the convicted murderess of her husband, whom the court granted a new trial on the ground of errors by the prosecution and the superior judge. The district attorney will ask the attorney general to petition the court for a rehearing of the argument on which the new trial was granted.

Whooping Cough
"In February our daughter has the whooping cough. Mr Lane, of Hartland, recommended Chamberlain's cough remedy and said it gave his customers the best of satisfaction. We found it as he said, and can recommend it to anyone having children troubled with whooping cough," says Mrs A. Goss, of Durand, Mich. For sale by Jackson Drug Store, Spagnoli, prop.

The House Fly.

Editor Ledger:—We hear a great deal about the house fly, about its nastiness, how it crawls over all kinds of filth and never wipes its feet, and then gets into your tea or coffee, or into the milk pitcher, or crawls over your bread, etc., and thereby breeds disease, which no doubt is all true enough. And if true, why not get a move on and exterminate them, and save the lives of thousands every year. Let the government offer a reward of fifty or a hundred thousand dollars for an exterminator, something that will draw them a long distance and kill them the instant that they set their dirty feet on it, and have fly killing stations every few miles or at every house if need be, and compel people to use it, and in every block in the city. And when they are all exterminated quarantine every ship that lands on our shores, until they have not a fly on board. If we succeed all the nations of the earth will follow suit, and the world will be rid of its greatest pest, except the liquor traffic. The plan is feasible. The United States and individual states have given premiums for objects less worthy. The state of New York offered one hundred thousand dollars for a water wheel that would run a canal boat without washing the banks of the canal. J. F. Gregg.

Do Your Clothes Fit?

Watch the men as they walk along the street, some catch your attention, some don't. It's all the way a suit fits. A well fitted garment always attracts attention. It isn't easy to fit a man, because most men are built differently. It takes skill to do it. When men's clothes don't fit the idea is conveyed that somebody is trying to save money in the wrong place. My clothes fit in every sense of the word. Talent is modied in every line. There is smartness, elegance and grace in every movement. A good suit is always an investment, not an expense. Try Wm. Ross, the tailor. Formerly Max Ladar's, Jackson, Cal.

DEFAULTER OF OVER \$6000

Chas. H. Turner, Grand Secretary of N. S. G. W., Short to That Extent.

Chas. H. Turner, grand secretary of Native sons, has been found short in his account to the tune of over \$6000. An expert examination of his books shows this defalcation during the past year. It is supposed that the beginning of the leakage dates further back. He has held the office of grand treasurer for six years and was a candidate for reelection before the last grand parlor which was held in Marysville last month. Charges were preferred against him at that time. Nothing definite was developed, but a certain suspicious entry in his accounts led to the belief that something was wrong. When his successor Fred H. Jung, was elected, an expert examination was started, and soon disclosed that a system of embezzlement had been going on, the leakage being \$6000 during the one year. Turner passed his early years in Jackson. Here he was schooled and lived during the years of his minority. Here he was married. Many years ago the family removed to San Francisco, where he has mostly resided ever since. His wife is a sister of A. Cammetti of this county. His friends and relatives keenly feel the blow resulting from his dishonest actions. The Call of the 26th says of this affair:

The discovery was made yesterday by grand trustee Louis H. Mooser and an expert accountant delegated by the grand parlor to examine Turner's books. The National surety company, which was on Turner's bonds during his incumbency, was notified of the defalcations yesterday, and today criminal proceedings will be taken against the former official.

Irregularities were discovered in Turner's books during the week prior to the meeting of the grand parlor at Marysville, but the discovery was not complete and as it then appeared from a cursory examination of the books that Turner had made good his peculation the grand officers compromised with the man, telling him that if he would not run for reelection his conduct would not be exposed.

After the grand parlor has adjourned a more extensive examination was made of Turner's books, with the result that it was found that he had misappropriated more than \$6,000 during the last year. Of this sum \$3,400 was taken from the per capita tax fund of the order and the balance from returns on supplies sold by the grand parlor to the subordinate parlors.

It is said that Turner has admitted his thefts to the officers of the grand parlor, explaining that he had no system of stealing, "but that he took the money when he needed it."

Turner shortly before had changed the system of bookkeeping in the office. A new set of books had been started and arbitrary balances established. On Friday, April 23, there was a meeting of the grand officers held in the local headquarters of the order in the Delbert building, Van Ness avenue and O'Farrell street.

The grand officers asked Mooser at that time for his report on the finances of the order. Mooser replied that he could not accept the books as they stood, owing to the recent change in bookkeeping. He added that in the books as they stood he had found that during the months of April and May, 1908, Turner had turned in \$1,000, which was not charged to any fund. That seemed a suspicious entry.

Turner admitted, it is stated, that he had borrowed \$1,000 from the funds of the order and had paid the sum back in that crude and unwieldy way.

Immediately, when that breach of faith was made known, the grand officers ordered the resignation of the grand secretary. Turner arose from his seat as if to comply with the request and started toward his desk. But as he neared the door he drew a revolver from his pocket and declared that he might as well die as be disgraced. Then he dodged out of the door and into the lavatory of the building.

Church Notes.

Order of services at the Methodist Episcopal church as follows: Sunday school at 2 p. m., preaching services every Sunday to commence at 11 a. m. and 7:30 p. m., prayer meeting every Wednesday at 7:30 p. m. The public is cordially invited to attend these services.

Won't Slight a Good Friend
"If ever I need a cough medicine again I know what to get," declares Mrs A. L.
